

Increasing Access to IO: A Global Webinar Series Frequently Asked Questions (FAQ)

Do you have to pay to register for this webinar series?

No! The webinar series is open-access and free to attend for anyone.

Are these live events?

Yes! The webinars will take place live and feature a Q&A discussion that will allow for attendee participation.

Will there be a recording of the webinar if I can't attend live?

Yes! The webinar recording will be offered as enduring materials for anyone unable to attend the live program. These materials will be posted in SITC's resource library one week after the completion of each webinar and will be sent to all registrants.

How many total webinars are there?

There are six total webinars in the series.

What are the different webinar topics?

- 1. The Current Landscape of IO Access*
- 2. Cell Therapy Administration*
- 3. Immune Checkpoint Inhibitors*
- 4. Rare and Challenging Cases*
- 5. Monitoring Response to Immunotherapy (iRECIST)*
- 6. Tumor Biomarkers and Assessing PD-L1*
